

# Protect Your Vote

Oppose NC bills that threaten equal voting rights.

It will be harder to vote as a result of proposed bills that would:

- **Require voters to show a government-issued photo ID when they vote.** This will create a new barrier to voting for 450,000 NC citizens, mostly seniors, low-income voters, women, youth and African Americans.
- **End Sunday voting,** even though 37,000 citizens used it in 2008. This will explicitly affect African American churches and the Souls to the Polls campaign.
- **Reduce the days and hours in the Early Voting period,** even though 60 percent of all NC voters used this option in 2008.
- **Stop voters from registering during Early Voting,** by eliminating Same-Day Registration, a right used by 250,000 NC voters in 2008.
- **Stop pre-registration for teenagers,** even though 37,500 future voters used the program in 2010 to signal their desire to be active citizens.
- **End the NC Public Campaign Fund** that gives voters more diversity in their choice of top judges and provides statewide judicial candidates a way to run without accepting big donations from special interests.
